Objective

A passionate and motivated second-year Computer Science student at Kirinyaga University. I aim to leverage my skills in programming, problem-solving, and technology to contribute to real-world projects and further develop my expertise in the tech industry.

Education

Kirinyaga University — *Bachelor of Science in Computer Science*
Year of Study: Second Year
Expected Graduation: September, 2027

Skills

- Programming Languages: JAVA, C++
- Web Development: HTML, CSS, JavaScript
- Database Management: SQL, MySQL.
- Operating Systems: Windows
- Problem-solving and analytical skills

Freelance Web Developer — *Self-Employed*

- Developed websites for small businesses to improve their online presence.
- Worked with clients to create customized websites using HTML, CSS, and JavaScript.

Extracurricular Activities

Computer Society of Kirinyaga — *Member*

- Actively participate in networking events, tech workshops, and projects organized by the society to expand my knowledge and build industry connections.

- ## Certifications
  - C#.NET SERIES — Microsoft
  - Certified Microsoft Student Ambassador

Achievements

Successfully built and launched a responsive personal portfolio website using HTML, CSS, and JavaScript. Used Git for version control in collaboration with a team to manage code changes and ensure smooth integration of features."
